ABOUT ME

A motivated 3rd year student in Artificial Intelligence and Data Science with hands-on work in Python, SQL, Java and full stack projects. Strong in problem solving and team work, with growing experience in NLP, cloud tools and data driven work. Open to roles in web development, app development, Python, C++, data science, AI and cloud projects.

EDUCATION

REVA UNIVERSITY
Bangalore,Karnataka

2023 - 2027

NSS HSS THATTAYIL
Pre-University College

2021 - 2023

NETAJI HSS PRAMADOM
High School

SKILL

- Proficient in Python
- Skilled in Data Cloud
- Skilled in SQL
- Multitasking Abilities
- Accurate Data Entry
- Strong Verbal Communication

WORK EXPERIENCE (PROJECT EXPERIENCE)

Blood Donation Management System

Blood Donation Management System using Flask and MySQL utilizing core principles of database management. The primary objective is to develop an efficient and user-friendly platform that connects blood donors with recipients and blood banks. The system manages critical data such as donor profiles, blood group availability, donation records, and blood requests from hospitals or banks

INTELLIGENT DATA MANAGEMENT CLOUD

Secure Agent Creation
User Creation in Informatica
Mapping Creation in Informatica Data Integration
User Group Creation in Informatica Data Integration

Implementation of Red Black trees and their operations

The project involves implementing a Red-Black Tree, a self-balancing binary search tree that ensures logarithmic time complexity for search, insertion, and deletion operations. By maintaining specific color-based properties, the Red-Black Tree ensures that the tree remains balanced, minimizing the height and maintaining efficient performance for a variety of operations.

ELECTRIC VEHICLE USAGE DATA ANALYSIS

This project focuses on analyzing Electric Vehicle (EV) charging session data using PySpark to help EV charging station providers optimize their infrastructure planning. Using PySpark's distributed data processing capabilities, large-scale charging session data is cleaned, processed, and analyzed.

SOFTWARE SKILLS

PYTHON

SQL

C++

CAED(basic modeling)

MATLAB

JAVA(basic programming)

Full Stack Web Developemt

Natural Language
Processing

ADDITIONAL INFORMATION

LAB SKILLS

Data structured Lab

Web Technology Lab

Neural Network Lab

Data Base Management Lab

Big Data Analysis Lab

LANGUAGE KNOWN

English(Advanced)

Hindi(Elementary)

Tamil(Intermediate)

Malayalam(Proficient)
